

DARIA RODIONOVA

Junior Data Scientist, computational linguist

@ dariarodionova.d@gmail.com +7 953 387 93 18 in [linkedin.com/in/ddrodionova](https://www.linkedin.com/in/ddrodionova)
github.com/ddrodionova

Interests: Machine Learning, NLP, databases, chat-bots

EDUCATION

BA in Fundamental and Computational Linguistics

Higher School of Economics

📅 September 2018 – June 2022 📍 Moscow, Russia

- Track: Computational Linguistics
- GPA 8.77/10
- Minor: Philosophy

WORK EXPERIENCE

Academic Intern

DeepPavlov

📅 May 2022 📍 Moscow, Russia

- Conducted the correlation analysis on chat-bot dialogues dataset and designed the beta version of tag system for conversational dialogue systems dashboard

OTHER EXPERIENCE

Teaching Assistant

Higher School of Economics

📅 September 2020 – June 2021 📍 Moscow, Russia

- Course: Korean Language

PUBLICATIONS

UniMorph 4.0: Universal Morphology

Khuyagbaatar Batsuren, Omer Goldman, et al.

📅 2022

- Contributed to the development of UniMorph library for Korean language

SKILLS

Programming languages Python R

Big Data & Machine Learning numpy

pandas sklearn nltk gensim

spaCy transformers pytorch

seaborn matplotlib

Databases SQL MongoDB

Data Science & Miscellaneous Technologies

OOP \LaTeX bs4 regex

LANGUAGES

Russian Native

English C1

Japanese B1

Korean B1
